OUR GROUP

Project

EZi EV is a member of the Project Better Energy group, which focuses on transforming lives and boosting businesses through state of the art technology, setting the standard with industry-leading, customer-focused service. Project Better Energy takes pride in specialising in all elements of green technology, being the home of Project Solar UK, Project EV, Project CURV, and Project Digital UK. Through working together, our goal is to achieve a carbon net-zero, eco-friendly future by providing high-quality products and services.

Two Simple Ways to Pay

THE CORPORATE JOURNEY

1

STEP ONE:

Set up your EZi-EV™ partnership account by completing the registration form: <https://www.ezi-ev.co.uk/registration.php>

2

STEP TWO:

EZi-EV™ will confirm they have received your account request.

3

STEP THREE:

As a new EZi-EV™ partner you will receive your bespoke website link within 3 working days. This is exclusively for your staff and customer to use when looking to arrange for an EV charger installation.

4

STEP FOUR:

Any customer leads you have, you can enter by clicking the “sales enquiry” button at the bottom of your website.

5

STEP FIVE:

Complete the short form (customer name, email address, contact number and sales managers name), and EZi-EV™ will do the rest.

THE CUSTOMER JOURNEY

1

STEP ONE:

The customer will receive an introductory email and EZi-EV™ will contact them within 48 working hours.

2

STEP TWO:

The customer will be asked some simple questions resulting in them selecting their preferred type of EV Charger and payment method.

3

STEP THREE:

Once payment has been arranged, the customer receives an installation survey.

4

STEP FOUR:

The EZi-EV™ installer will look to schedule the EV charger installation on completion of the survey.

5

STEP FIVE:

The customer has a Project EV charger installed by the EZi-EV™ installer.
